LIMING LIU

llmmail2021@gmail.com | |

EDUCATION

Master of Science, Robotics, Cognition, Intelligence — *Technical University of Munich (TUM)*
Oct 2024 – Oct 2026 (Est.) — *Munich, Germany*
- **Coursework:** *(English)* Machine & Deep Learning, Bayesian Statistics, Advanced Algorithms, High-Performance Systems

Bachelor of Science, Electrical & Information Technology — *University of Siegen*
Oct 2021 – Mar 2024 — *Siegen, Germany*
- **Coursework:** *(German)* Control Systems, Signal Processing, Data Analysis, Electronics

B.Sc. Program, Elec. Engineering & German Language — *Qingdao Univ. of Sci. & Tech. (QUST)*
Sep 2018 – Sep 2021 — *Qingdao, China*
- *(Chinese)* Transferred to University of Siegen upon completion.

PROJECTS

Master Thesis: Flow Matching Predictive Control with Constraints — *Academic Project, TUM*
Mar 2026 – Oct 2026 (Est.) — *Munich, Germany*
- Investigating advanced Flow Matching generative models as principled priors for constrained MPC on robotic systems; validated through large-scale simulation experiments (MuJoCo/SLURM) across constraint satisfaction and trajectory quality.

Low-Level Systems & Infrastructure — *Academic Project, TUM*
Sep 2025 – Jan 2026 — *Munich, Germany*
- Engineered concurrent data structures, custom memory allocators, and LLVM compiler passes in C/C++/Rust; grounding in systems at every level of the stack.

Multi-Agent AI System for Knowledge & Recommendation — *Academic Project, TUM*
Mar 2025 – Aug 2025 — *Munich, Germany*
- Designed a plan-driven multi-agent LLM system for high-quality RAG knowledge-base construction; structured data pipelines ensure equitable, personalised outputs — relevant to public information systems and institutional research.

Quantitative Simulation & Computational Modelling — *Academic Project, TUM*
Sep 2024 – Feb 2025 — *Munich, Germany*
- Built a C++ Monte Carlo engine for stochastic system modelling — applicable to forecasting, risk analysis, and evidence-based decision-making.

WORK EXPERIENCE

Research Intern (Bachelor Thesis) — *Fraunhofer Institute for Laser Technology (ILT)*
Jul 2023 – Mar 2024 — *Aachen, Germany*
- Commissioned by Fraunhofer ILT — Europe's foremost applied R&D institute — to independently develop a real-time sensor acquisition system and Python/MATLAB data analysis framework for laser process quality assurance; thesis graded 1.0 (Excellent).

Engineering Intern — *Edgewave GmbH*
Mar 2023 – Jul 2023 — *Würselen, Germany*
- Developed automation tools and conducted systematic data analysis supporting R&D process optimisation and quality assurance.

SKILLS & LANGUAGES

Research & Tools:	Data analysis, quantitative modeling, technical writing; Python, MATLAB
AI & ML Tools:	Agentic coding (Claude Code, Copilot, etc.); local LLM deployment & inference (Ollama, etc.); full-stack DL training & deployment (PyTorch, HuggingFace, etc.)
Finance:	Chartered Financial Analyst (CFA Institute, USA) Level I (Jun 2026); Bloomberg Market Concepts, Finance Fundamentals, Spreadsheet Analysis, ESG (Jul 2025)
Languages:	Chinese (Native), German (Fluent, TestDaF: 17), English (Proficient, IELTS: 6.5), Swedish (A1)
